Tarkett, a vision of flooring solutions

A pioneer in the history of flooring, Tarkett brings an international expertise and a wealth of innovations in the development of vinyl floorings. Our teams focus on customers' ever changing needs to design flooring solutions with better functional and environmental performance that contribute to people's comfort and well-being.

130 YEARS

With 130 years' experience, Tarkett is a worldwide leader in the flooring industry. We provide integrated flooring and sports surface solutions to architects, facility professionals, contractors, distributors, installers and end users.

WORLDWIDE

Tarkett employs 9.000 people at 29 production sites and in over 50 sales and marketing companies, serving customers in over 100 countries. We produce and sell around 1 million square metres of flooring every day.

REFERENCES

Tarkett works with many of the world's leading architects and building professionals. As a result, our flooring and sports surface solutions feature in numerous prestigious architectural references. Together we help people enjoy a better quality of life every day at work, at home or in their sporting activities.

Creating the ultimate flooring experience

Our flooring solutions make a very real contribution to improving people's quality of life. From a broad portfolio of products adapted to different needs and tastes worldwide, Tarkett can create a distinctive flooring experience. Every solution brings functional, sensorial and ecological benefits for each project, whether public, commercial, residential or sports, new construction and home renovation.

OFFERING TANGIBLE BENEFITS

FUNCTIONAL BENEFITS

Tarkett creates durable and easy to install flooring solutions with unique surface treatments that ensure an outstanding day in day out resistance with minimal cleaning and maintenance. These high-performance floors deliver the lowest possible life cycle costs on the market, and an outstanding ROI for our clients.

SENSORIAL BENEFITS

Tarkett's flooring solutions appeal to every sense, and create environments that put quality of life at the top of the agenda. Whether it's improved sound absorption, heat insulation, underfoot comfort or energizing colours, patterns and textures, our floors help create environments that soothe or stimulate the senses and promote physical and emotional well-being.

ECOLOGICAL BENEFITS

We continually look for new ways to increase the content of recycled materials in our flooring solutions and to recycle more. Our slip-resistant and static control products raise levels of building safety, while the low VOC emissions of our products contribute to better indoor air quality. We design our products for the lowest possible use of water, detergents and energy for cleaning, so reducing their environmental footprint.

Make your balanced choice

Tarkett's approach to sustainability is all about giving customers simple and clear information so they can make the right choice of flooring, balancing their project and budget requirements beside the need for sustainable solutions.

At Tarkett, sustainability isn't just a theory but something we put in practice everyday in the way we design and make our products. We have focused on four key areas where customers can make a balanced choice:

1

Choose to use better materials – natural and renewable where possible

2

Select flooring produced with fewer resources – we monitor and continuously improve on our consumption of water, energy and the waste we generate

3

Ensure safer, healthier products that contribute to well-being in people-friendly spaces

4

Reuse and recycle products through participating in recycling or by actively recycling

Choose better materials

To make a balanced choice, Tarkett gives you detailed information about its flooring and its content. From this you can select more environmentally-friendly products which:

- have a larger content of natural and/or renewable raw materials
- include recycled content
- can be recycled in turn
- release lower amounts of VOCs helping improve indoor air quality

> You choose sustainable products that contribute to protecting the environment.

Select flooring produced with fewer resources

Every Tarkett product is manufactured to the highest environmental standards in facilities certified ISO 9001 and ISO 14001, with regular independent audits to assess environmental risks. We closely monitor five key indicators to ensure we continuously improve in our use of resources:

- energy consumption
- water consumption
- VOC emissions from production
- waste generation
- recycling

> You choose products designed and manufactured in an environmentally-responsible way.

Ensure safer, healthier products that contribute to well-being in people-friendly spaces

Reuse and recycling of materials

When you choose a Tarkett product, you take part in our effort to enhance quality of life, particularly by improving air quality inside buildings and homes. For instance, Tarkett products:

- contribute to the best indoor air quality in the flooring marketplace through reduced VOC emissions
- reduce the use of chemical cleaning agents and water and energy consumption through unique surface treatments

> You choose of flooring contributes to reuse and recycling.

Look for the tag!

Tarkett's Balanced Choice tag provides simple and transparent information for our customers about the content of our products and how they contribute to sustainable development. This tag is a significant innovation in the flooring industry and will be marked on all Tarkett product information. For each product, the tag uses percentages to show:

- the portion of raw materials that is natural and renewable
- how much recycled material it contains (mainly from waste during production and installation)
- if the product can be recycled
- the level of VOC emissions (TVOC in µg/m³ after 28 days)

Example:

TARKETT 202	TARKETT BALANCED CHOICE	53 % Natural	100%* 15 % Recyclable Recycled content	<100 µg/m ³ * Textile backing - unrecyclable Better Indoor Air Quality *TVOC AT 28 DAYS
-------------	-------------------------	-----------------	---	---

*Textile backing - unrecyclable

*TVOC AT 28 DAYS

Focus on Better indoor air quality

Currently, all products that Tarkett manufactures have VOC* emissions of less than 100 µg/m³ (TVOC after 28 days) contributing to better interior air quality. This makes Tarkett an industry reference for VOC reduction with products that are ten times better than current European standards. Tarkett's ambition will go further in terms of VOC reduction, in order to ensure better air quality in buildings and homes.

In addition, Tarkett has introduced Tarkospray, a unique water-based glue that improves conditions for those laying floors, while also considerably reducing emissions during installation. Tarkett is developing further eco-design innovations to bring its customers the best indoor air quality.

* VOC: Volatile Organic Compound

Designed for living

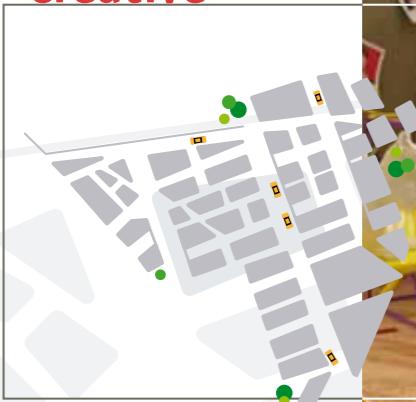

Easy Life Trend

- Creative
- Playful technology
- Facilitating life

Enjoy tomorrow today as technology takes on a warmer playful tone. This isn't the hard, ultra sleek industrial style of previous years.

It's dressed in tangy and energetic colours and fizzing with energy. With 'Easy life', you are in a world made simpler through technology designed for today's mobile lifestyle where creativity can flow.

Creative

Facilitating life

Every year, Tarkett's international Design teams explore the emerging colours, textures, materials and life styles inspiring stylists, architects and designers worldwide. From this we are able to enrich our collections of designs to ensure floors that will coordinate and enhance interior spaces with the objects, furniture and equipment used within them.

In the *Tarkett Observer*, our trend watching system, we've analysed the key cultural and architectural trends to devise design concepts for 2011:

Serenity Trend

- Purity of nature
- Second skin,
- Harmony & wellbeing

'Serenity' cocoons you in a space contoured by balance and peace. The purity of nature feels like a second skin and transforms your home into a sanctuary from the stresses of daily life.

The colours are calm, expressing a communication with nature. It's a return to simplicity and harmony, a dream of lightness and well-being.

Purity of nature

Second skin

Harmony & wellbeing

Creativ'Lab Trend

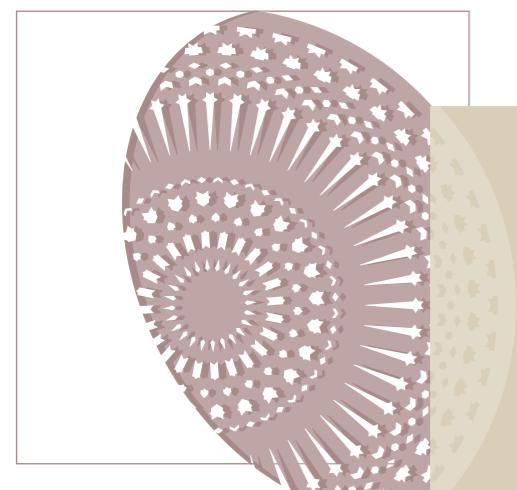

- *Vintage*
- *Craftmanship*
- *Self-design*

More power to the imagination. 'Creative Lab' is where energy and artistic expression take centre stage.

Combining contemporary styling with a nostalgia for traditional arts and crafts, this design concept explores the playful juxtaposition of new and old with the beauty of do it yourself. It's self-design with a spirit of recycling cloaked in tones of warm wood and quirky colours.

Craftmanship

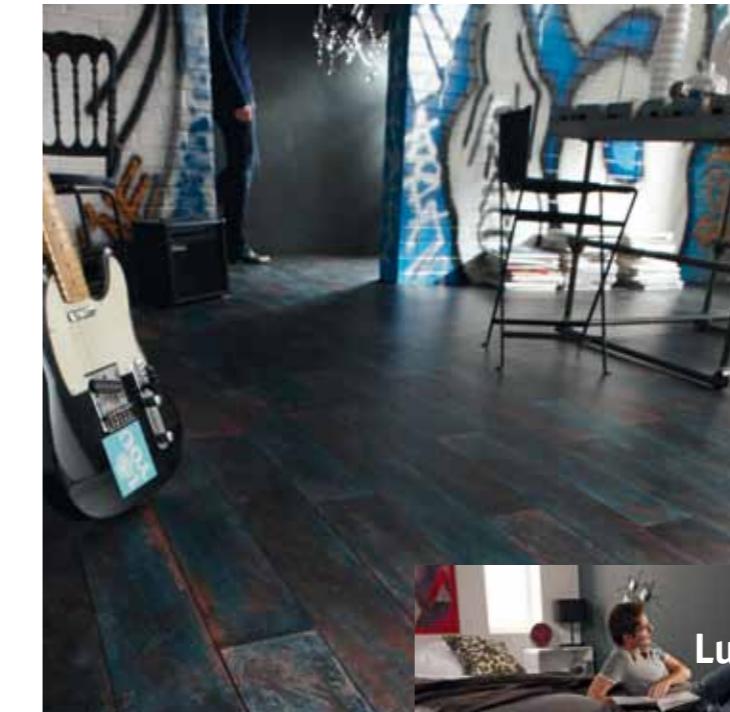

Self-design

Vintage

Theatrical

Luxury & elegance

EXTRAVAGANCE

Extravagance

Experience Trend

- *Theatrical*
- *Luxury & elegance*
- *Extravagance*

Luxury has never been so much fun with a tongue and cheek extravagance that's designed to shake up old habits and attitudes.

Provocation is the key to an over the top theatrical look that's an eclectic mix of baroque exuberance and timeless classics –with a twist.

Dramatic lighting and striking colours create the originality of this 'experience'.

A solution for every room

No project is the same; and people's needs and tastes differ. That's why Tarkett offers a range of flooring solutions adapted for each room and lifestyle.

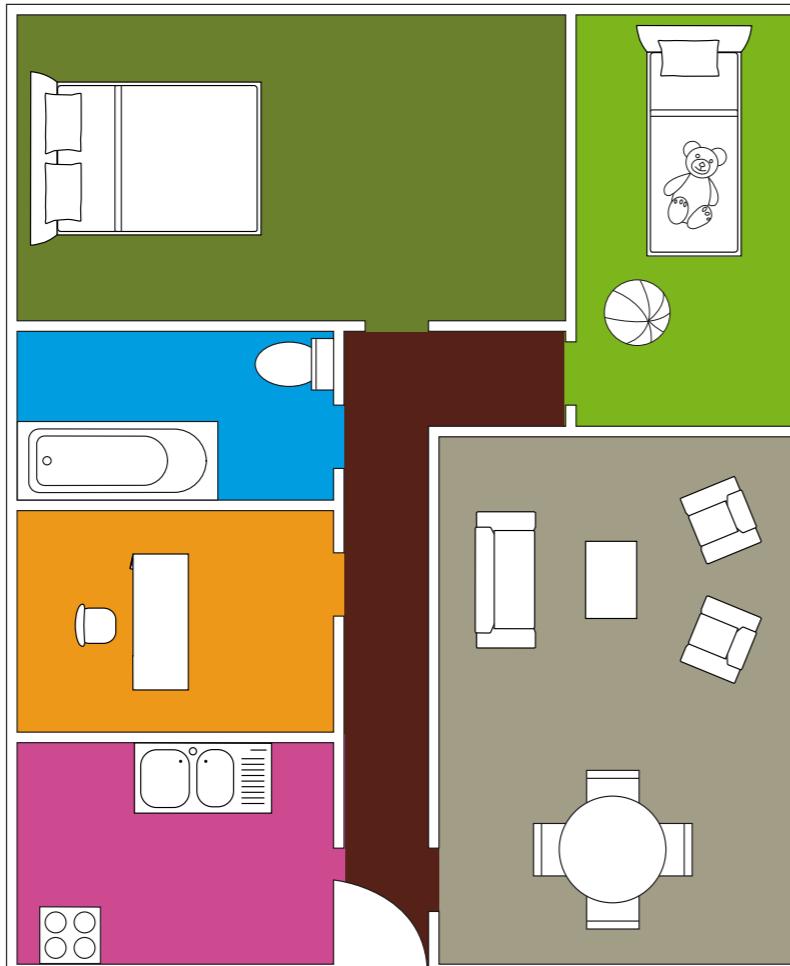

Our floors are:

Functional – meeting functional needs like durability and resistance

Sensorial – enhancing well-being through comfort and inspiring colours and designs

Ecological – contributing to air quality and reducing use of water and detergents for cleaning.

Tarkett advice

Sandrine Bellavoine, Art Director

"Reading, relaxing or reconnecting, the living room's all about your style of life. Contemporary, classic or quirky - you create the mood. With our wide palette of colours and patterns, you'll never lack inspiration!"

Living room

Kids room

Your needs

- Hygiene, easy maintenance
- Resistance to marks & scratches
- Comfort & stimulation

Tarkett answer

A floor that meets the needs of your children every step of the way. Sleep and play come naturally with our colours and designs. Perfect for daytime fun, they absorb sound and provide warmth and comfort for kids sitting, walking or crawling. Safe, hardwearing and hygienic, when it's time for bed this ideal playground is easy to clean and make ready for another day.

Tarkett advice

Ilidio Silva, Quality Manager

"Surfaces should be safe and stimulating. We combined design and durability to make floors that accompany children as they develop. I chose Gribouille for my kids and it just gets them drawing!"

Bedroom

Your needs

- Comfort
- Warmth
- Easy maintenance

Tarkett answer

A floor that softens your waking moments with underfoot warmth and comfort. Styles and surfaces help soothe the senses and absorb noise to keep the outside world from coming in. An attractive range of colours from warm wood tones to neutral nuances offer the ideal choice for personalizing this very private of spaces.

Tarkett selection

Tarkett advice

Corinne Buggenhout, Graphic Designer

"Bedrooms should be a haven of comfort and calm. We've developed floors that create the right atmosphere to relax and reload, and with all the designs you could dream of!"

Kitchen

Your needs

- Hygiene and safety
- Resistance to spills and stains
- Style and design

Tarkett answer

A floor with the right ingredients for clean and creative cooking. With a surface that's hygienic and hardwearing, splashes and spills simply wipe away time after time. Add texture and flavour your style with a range of delicious decors that bring zest to your home living and eating.

Tarkett selection

- FIAB Metallica Grey (*see page 27*)
- Starfloor Ceramic (*see page 38*)
- Tarkett 240 (*see page 68*)
- Design 260 (*see page 94*)

Tarkett advice

Valérie Pavard, Designer

"Family lunch or late night supper, complement your cuisine with the colours and finishes of our floors. Stylish and easy to live with, Tarkett offers the perfect recipe."

Bathroom

Your needs

- Water and slip resistance
- Hygiene, easy maintenance
- Comfort and cosiness

Tarkett answer

A floor that refreshes your senses with barefoot comfort and warmth. With a healthy resistance to germs it minimizes cleaning. And its outstanding water resistance means you can be splash happy without fear of slipping. So bathe in beauty with the colours, textures and safe surfaces that will enhance your wellbeing from top to toe.

- Design 300 (*see page 90*)
- Design 260 (*see page 94*)

Tarkett advice

Alban Parisse, Product Manager

"In the bathroom, comfort goes hand in hand with safety. Wet or dry, Tarkett's floors ensure no slipping and less cleaning. Classic, traditional, or modern décors, help you soak up the atmosphere."

Hallway

Your needs

- Resistance to traffic
- Moisture resistance, easy maintenance
- Comfort and cosiness

Tarkett answer

A floor that works hard at first impressions. Absorbing noise and impact, it withstands well the passage of people and time for a long-lasting comfort. Resistant to moisture and easy to keep clean, it's the beautiful and practical way to really make an entrance.

Tarkett selection

- Starfloor (*see page 32*)
- Tarkett 300 (*see page 58*)
- Tarkett 240 (*see page 68*)
- Design 250 (*see page 114*)

Tarkett advice

Christophe Trinel, Product Manager

"Beautiful should also be practical. With Tarkett floors you can enjoy a real welcome home with surfaces tried and tested to endure the daily comings and goings of life."

Your needs

- Resistance (to chairs and marks) and safety (antistatic)
- Working comfort
- Ease of installation & maintenance

Tarkett answer

A floor that brings a positive and productive environment to your working day. It's an efficient combination of style and comfort with all the practical things that count – antistatic, easy to clean and maintain and highly resistant to the scuffs and scratches of chairs and shoes. With designs to motivate your mood, these are floors that really work for you.

Tarkett selection

- Tarkett 250 (*see page 44*)
- Tarkett 200 (*see page 48*)
- Tarkett 201 (*see page 50*)
- Tarkett 202 (*see page 52*)

Tarkett advice

Stephen Stiens, Marketing Director

"Our priority is to develop the right floors for the different functional demands of interior spaces. Design concepts that deliver professional, practical and creative solutions. And which contribute to people's quality of life – at home or at work."

Office

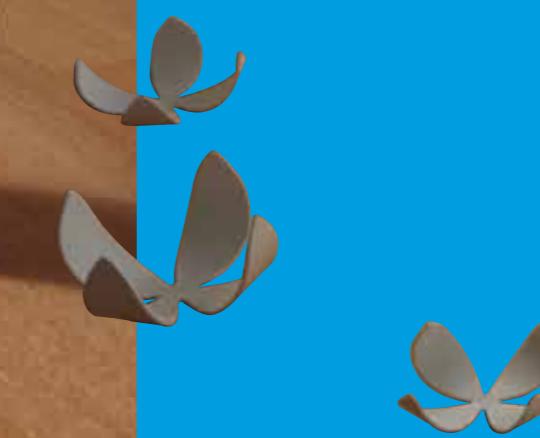

Floor in a box

Tarkett has it
all boxed up ...

- The smart box
- Easy to choose,
transport & install
- Design choice

Floor in a Box is a Tarkett flooring innovation.

Floor in a Box is an all new flooring concept from Tarkett.

It's the uniquely different way to design and install a floor.

With all you need in the box – you can let your imagination go and get redecorating your home.

- **Easy** to choose from a wide range of design decors
- **Easy** to carry small boxes
- **Easy** to plan design - 2m² per box for rapid calculation of room requirements
- **Easy** to install – strips 22cm wide with self-adhesive backing which can be taken up and re-laid within an hour
- **Easy** to care for – simple vacuum or damp mop cleaning

Design your space

Floor in a Box has designs to suit everyone. Bring a taste of tradition with the soothing tones of natural woods or go contemporary with a range of colour tones and textures from ceramic to metallic. With you as the designer, you have complete freedom to mix and match designs and patterns to create your atmosphere.

Change your floor today!

Nothing could be simpler. In its convenient to carry format, Floor in a Box makes buying, transporting and installing easy. Each box contains 2m² of flooring making it simple to calculate what you need. Floor in a Box comes in self-adhesive strips that give ultimate flexibility – they can be taken up and re-laid within an hour.

And the box even includes clever features such as an in-built guide for measuring the final distance to edges. The flooring is supple and easy to cut for careful finishing around doors and along walls.

Ensure your comfort

With Floor in a Box, you get all the practical advantages of a well-designed Tarkett floor – good acoustic absorption and great underfoot comfort.

It's a flooring that stands the test of time with joints that are invisible and stay securely down. And maintaining your floor couldn't be easier – just a simple vacuuming or regular cleaning with a damp mop or cloth. Floor in a Box not only ensures your comfort but also your peace of mind - a premium quality flooring guaranteed for 10 years and manufactured to Tarkett's highest environmental standards.

Floor in a box

INSTALLATION

What you will need:

A tape measure, cutter and spatula measuring 22cm minimum (and a pad or cushion for your knees).

Before installation:

Ensure the surface beneath is clean, flat, smooth, dry and free of cracks. Store the boxes in the room for at least 24 hours before fitting.

1.

2.

3.

4.

5.

6.

TO INSTALL:

1. Identify and mark the centre point of the room by plotting two perpendicular lines on the floor. Draw a line at right angles to the adjacent wall along this central point.

2. Use the winder to unroll the product.

3. Place the beginning of the roll against the wall or along the drawn line.

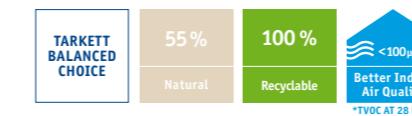

4. Peel off 50 cm of the protective sheet and stick the beginning of the strip against the wall.

5. Cut the product using the special opening in the box.

6. When the whole of the strip is stuck down, cut off any excess using the spatula and cutter.

Starfloor

Make it personal ...

- Design it
- Do it
- Enjoy it

The ultimate way to personalize any interior space. Starfloor makes you the designer of your own floor by mixing and matching from a wide-ranging combination of plank and tile decors.

Starfloor is where simplicity meets creativity. Planks and tiles come in easy to carry boxes and with a self-adhesive backing that makes laying easy and intuitive. Each floor is 'made to measure' in design and dimension, so there is little waste. As all planks and tiles are highly resistant to stains and scratches there is minimal maintenance making Starfloor the ideal economic and ecological choice.

- Easy to install with regular plank or tile formats with self-adhesive backing
- Easy to clean and maintain
- Decors inspired by today's major design trends
- Economic - you only use what you need so there's little waste
- Ecological - stain resistance means simple cleaning and little maintenance

Starfloor Vintage

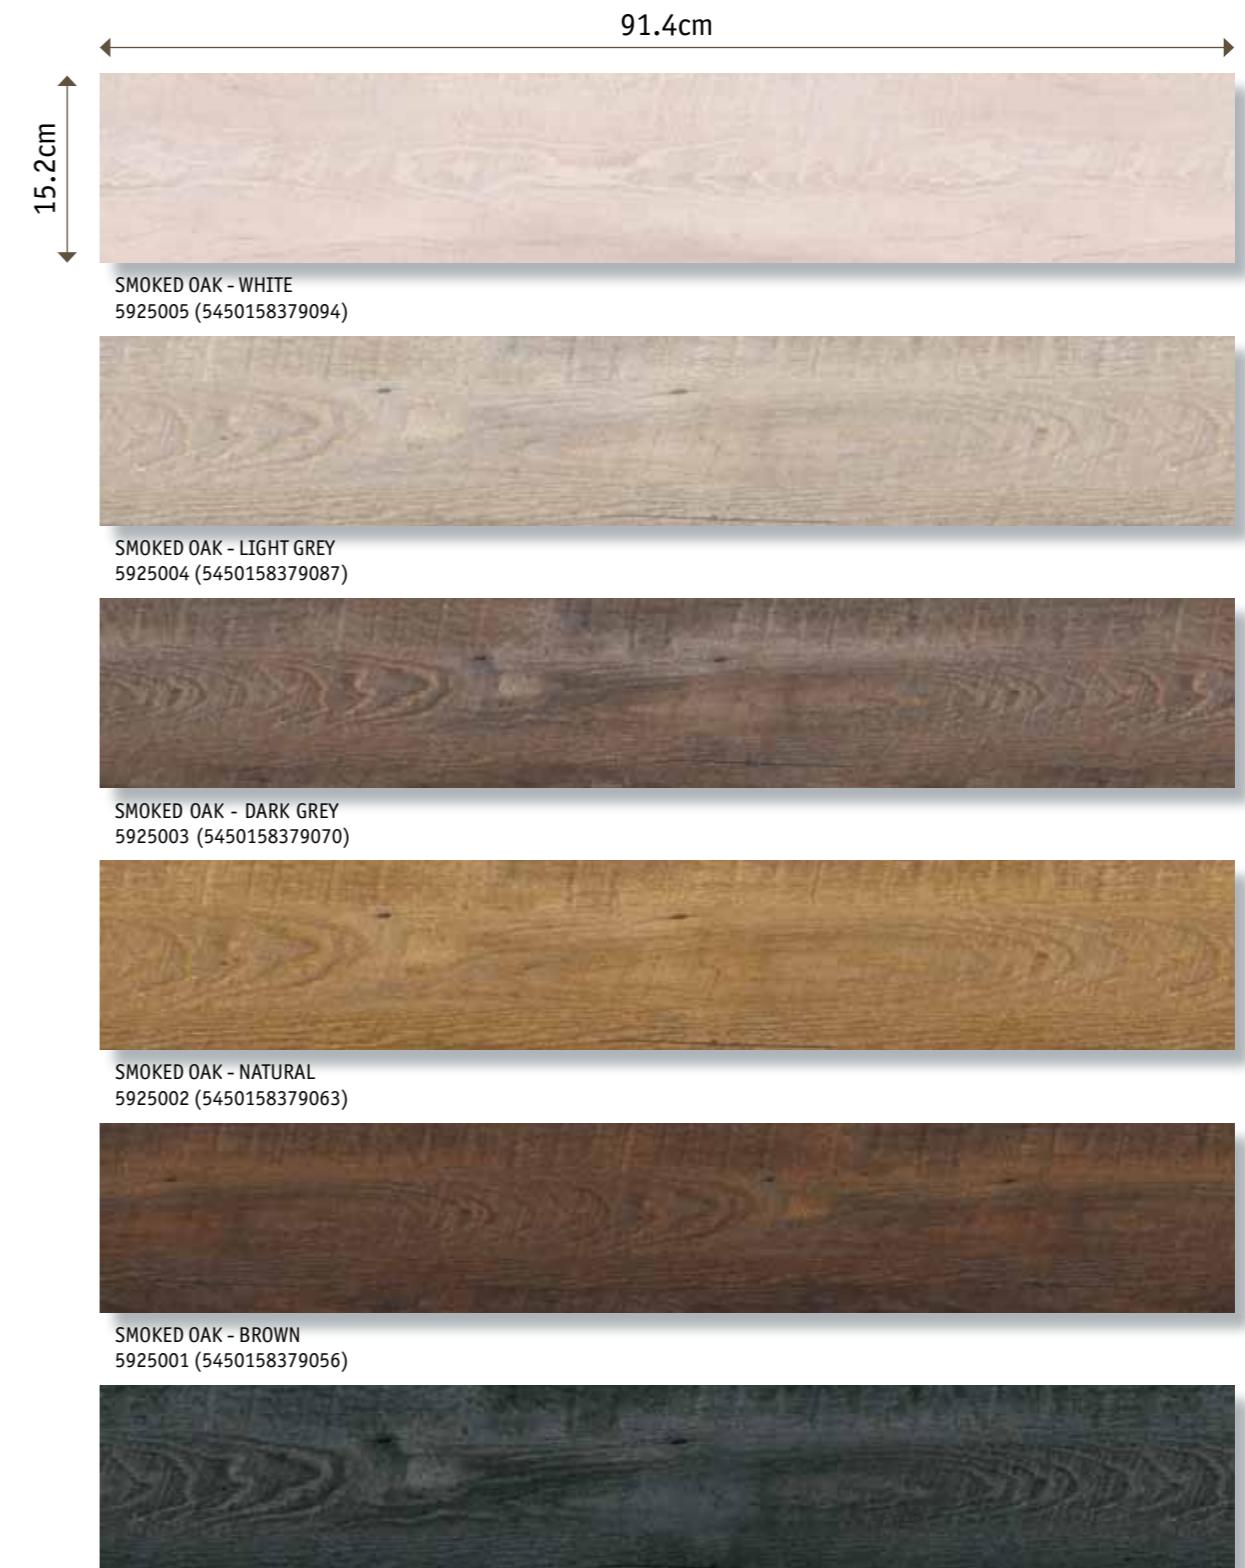

Smoked Oak Light Grey • Creativ'Lab Trend

INSTALLATION

What you will need:

A measuring tape, a metal ruler, a knife/cutter, a pencil (and a pad or cushion for your knees)

Before installation:

Ensure the surface is clean, flat, smooth and dry.

TO INSTALL:

1. Identify and mark the centre point of the room by drawing two perpendicular lines on the floor.
2. Install the first plank or tile from this central point towards the adjacent sides of the room.
3. At wall, draw and then cut the tile to the correct size.
4. Continue to install the remaining floor to ends of the room, taking care when cutting planks or tiles to fit along all walls.

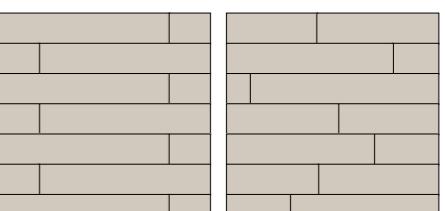

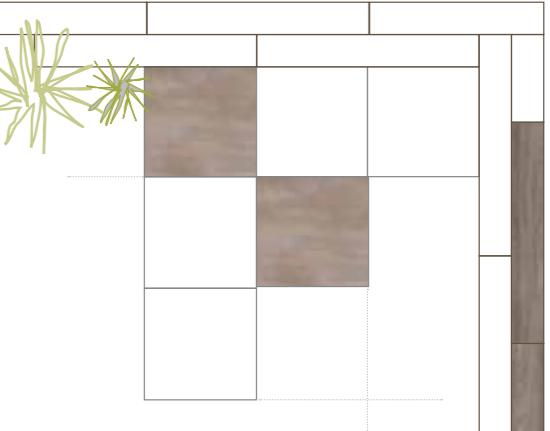

MAINTENANCE

Starfloor is easy to maintain.

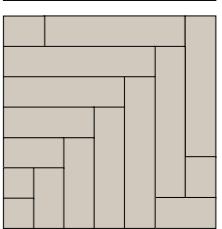

- Regular/daily cleaning with a vacuum cleaner.
- Weekly cleaning with mild floor cleaner.
- DO NOT use soft soap, linseed oil products or acetone.

EXTREME PROTECTION:
A protection which makes the surface
7-times harder than ordinary vinyl.

TEXSTYLE :
Textile backing for a greater
underfoot and acoustic comfort.

HYGIENIC:
Hypoallergenic Sanitized treatment
which inhibits the growth of germs
and allergens.

Design range

Designed with flair,
made with care ...

Tarkett's Design range comes from
the creativity of an international team
with an eye on the future of flooring.

Sensorial effects in colour, patterns
and surface texture bring ambience and
character to interior spaces.

Yet beautiful is also practical.
This range has all the acoustic, thermal
and underfoot comforts, plus durability
and resistance for the daily demands of
any lifestyle.

400 unique ideas to explore. An infinite
number of possibilities to create.

- BEAUTIFUL AND PRACTICAL
- DESIGNS FOR EVERY SPACE & TASTE
- COMFORTABLE YET RESISTANT

Design 303

New !
