## STANDARD COLLECTION

The budgetary collection of our photomurals is made on a special paper (blue back) with a method of precise offset printing, with special inks, which practically do not fade and keep presentable appearance during all life of the product.

Revolutionary technology and the wide format of our equipment allow us to make photomurals of a format of 360 cm x 254 cm from four fragments only, unlike production of other firms, in which products of identical format are manufactured from 8 fragments, or even more. High quality and high density of material, on which our murals are manufactured, allow consumers to not have problems with installation of our products on the desired surfaces.

4 - fragment technology allows to reduce time of installation twice in comparison to 8 - fragment technology.

The variety of designs gives the opportunity to use them in all types of inhabited and industrial interiors, except interiors with high humidity.

The composition of the murals is solved in such a way, that if necessary, size can be changed for smaller, without changing the integrity of a plot.

Attractive packaging and low cost make this collection excellent choice for mass realization in DIY, centers of wholesale commerce, internet shops, etc.

Here we present the collection, which is always at the stock and at your immediate disposal. If you didn't find the designs, which are conformable with your requirements, or you would like to manufacture mural designs from other collections of this catalogue, or even your own design - nothing is impossible!

For this purpose, please contact our experts by the mail or phone and your wishes will be executed with the highest quality and in the shortest time frames.

All our products are certificated on procedure EN 15102-2008

### CREATIVE XXL COLLECTION

The middle class collection of our photomurals is made on special paper base (blue back) with a method of high quality digital printing and environmentally friendly polymer ink, creating cleanable polymer layer.

This product is not afraid of UV, what gives the opportunity to have the same quality of colors, during all life of the mural.

The wide format of our equipment allows us to make photomurals of a format of 360cm x 270cm from four strips only, which makes process of application of photomural practically identical to an installation of ordinary wall-papers.

The highest quality and the maximal density of a basis of our photomurals allow consumers to put our products on the wall without overlapping, what gives higher accuracy of positioning.

The rolled technology reduces time of installation and preparation.

The variety of designs gives the opportunity to use them in all types of inhabited and industrial interiors, except interiors with high humidity.

The composition of the murals is solved in such a way, that if necessary, size can be changed for smaller without changing integrity of a plot.

Attractive packaging, reasonable price and unique properties of the photomurals, allowing wet cleaning, make this collection excellent choice for mass realization in the centers of wholesale commerce, internet shops, design and architectural bureaus.

Here we present the collection, which is always at the stock and at your immediate disposal.

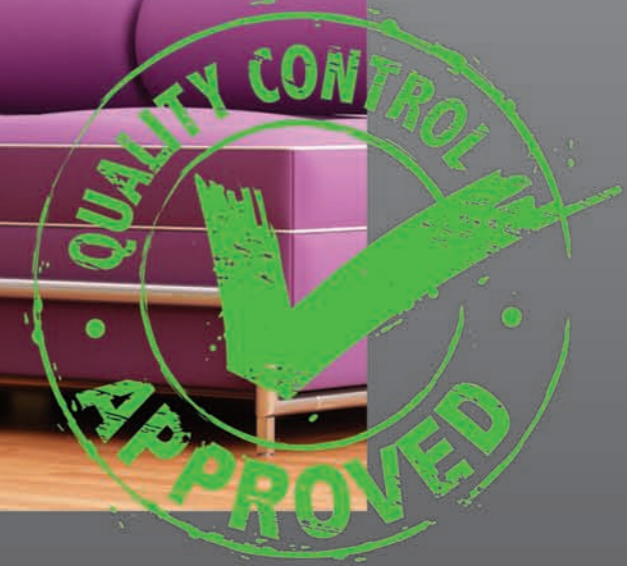

If you didn't find the designs, which are conformable with your wishes, or you would like to manufacture mural designs from other collections of this catalogue, or even your own design - nothing is impossible!

For this purpose, please contact our experts by the mail or phone and your wishes will be executed with the highest quality and in the shortest time frames.

#### CREATIVE XL COLLECTION

The middle class collection of our photomurals is made on special paper base (blue back) with a method of high quality digital printing and environmentally friendly polymer ink, creating cleanable polymer layer.

This product is not afraid of UV, what gives the opportunity to have the same quality of colors during all life of the mural.

The wide format of our equipment allows us to make photomurals format of 202cm x 180cm from two strips only, which makes process of application of photomural practically identical to an installation of ordinary wall-papers.

The highest quality and the maximal density of a basis of our photomurals allow consumers to put our products on the wall without overlapping, what gives higher accuracy of positioning.

The rolled technology reduces time of installation and preparation.

The variety of designs gives the opportunity to use them in all types of inhabited and industrial interiors, except interiors with high humidity.

The composition of the murals is solved in such a way, that if necessary, size can be changed for smaller without changing integrity of a plot.

Attractive packaging, reasonable price and unique properties of the photomurals, allowing to make wet cleaning, make this collection excellent choice for mass realization in the centers of wholesale commerce, internet shops, design and architectural bureaus.

Here we present the collection, which is always at the stock and at your immediate disposal.

If you didn't find the designs, which are conformable with your wishes, or you would like to manufacture mural designs from other collections of this catalogue, or even your own design - nothing is impossible!

For this purpose, please contact our experts by the mail or phone and your wishes will be executed with the highest quality and in the shortest time frames.

All our products are certificated on procedure EN 15102-2008

### MAXI POSTER COLLECTION

Unique middle class collection of our small sized photomurals is made on special paper base (blue back) with a method of high quality digital printing and environmentally friendly polymer ink, creating cleanable polymer layer.

This product is not afraid of UV, what gives the opportunity to have the same quality of colors during all life of the mural.

The wide format of our equipment allows us to make photomurals of format of 160cm x 115cm from one part only, what makes the process of installation practically immediate.

The high density and magnificent quality of our murals give the opportunity to install them with standard method of installation of normal wallpapers (on glue), or to use the method of installation of posters (on various temporary fixes).

The variety of designs and small size give the opportunity of decorating any surfaces of inhabited and industrial interiors, except interiors with high humidity.

The composition of the murals is solved in such a way, that if necessary, size can be changed for smaller without changing integrity of a plot.

Attractive packaging, low price and unique properties of the photomurals, allowing wet cleaning, make this collection excellent choice for mass realization in DIY, centers of wholesale commerce, internet shops, design and architectural bureaus.

Here we present the collection, which is always at the stock and at your immediate disposal.
